SUMMARY

Full-stack developer with hands-on experience in efficient web apps. Completed an internship at Addis Software, contributing to the design and development of an ERP system. Delivered freelance projects for prominent clients like the Ethiopian Medical Student Association (EMSA) & Roha Digitals. Skilled in modern web technologies, with a focus on delivering user-friendly and scalable solutions.

EXPERIENCE

Frontend Developer

Peeps Technologies Pvt. Ltd   📅 Present - 12/03/25

- Customizing and developed Shopify themes to align with brand identity, enhancing user experience and business functionality.
- Optimized UI components and implemented SEO best practices, improving page load speed by 15% and boosting search engine rankings.
- Debug and enhance Shopify Liquid templates and scripts.
- Implemented responsive and high-performance front-end solutions, ensuring cross-browser compatibility and mobile responsiveness.

Software Developer Intern

Addis Software   📅 06/2024 - 09/2024

- Translated design prototypes into interactive interfaces for ERP modules like Employee, Payroll, Attendance, and Reports, improving task navigation efficiency by 20%.
- Collaborated with back-end teams to design role-based workflows, including employee/admin authentication and data filtering, enhancing system usability.
- Enhanced system performance by introducing lazy loading and UI optimizations, reducing page load time by 15% across key modules.
- Optimized code quality through regular reviews and adherence to best practices.
- Worked closely with the design team to ensure a consistent UI and UX, which strengthened my communication skills.

Web Application Developer

EOTC-MK   📅 Present

- Developing a dynamic registration system for new members to explore and join different sections of the Christians Association, aiming to increase membership sign-ups by 20%.
- Building a ticket management feature to track spiritual trip bookings, enhancing event planning.

Website Developer

Roha Digitals   📅 Present

- Designing and developing a responsive multi-page web app for an architectural firm called Roha Digitals.
